

## EMERGENCY SERVICES

### Beaver County's Swift911 Notification System

Swift911 is a high-speed Emergency Notification System that alerts residents to emergency situations like severe storm warnings, evacuations and more in the local area. The program has the capability of delivering messages to the entire County via telephone, cell phone, email, text message and social media sites. Some phone numbers are not in the system and residents are encouraged to update their information and contact preferences, or add phone numbers, cell phones and email addresses.
